

We are proud and privileged to have these two ladies on CRCC Nursing Team! Erin has received the DAISY Award for Extraordinary Nurses and Shari the DAISY Nurse Leader Award! These nationally recognized honors came through nominations from parents, staff, and community friends. Big thank you to all who participated in making this year's awards and celebration possible.

The Grace Abbott School of Social Work at UNO has partnered with China's Ministry of Civil Affairs to help China achieve its goal of having 2 million social workers by 2020. During their recent visit to Omaha, this 12-member delegation chose to visit CRCC to learn more about our social work processes and the specialized programs and services we provide. These individuals sought insight on program development that

we implement in our facilities and gained knowledge that will assist in the growth of their social work system back home. We were honored to spend the day with this team and share our expertise.

# Therapy Happenings

Bryson can ride a bike, Grace can walk without supports, Rain can go over obstacles, Gavin can verbalize his needs... "Together, we can do anything." These achievements and many more are driven by the committed, passionate and dedicated therapists at CRCC. It is through their innovation and daily efforts that children's lives are changed. If you want to be a part of the great work these therapists do, check out our employment page at [crccomaha.org](http://crccomaha.org). We would love to have you on our team!
